

Norfolk Fire and Rescue Service

Hi, we are Steve Collins and Steve Keen and are part of a new group of eight frontline fire-fighters who have been put in post specifically to enhance public safety in rural areas by helping Retained Fire Stations who use on-call fire-fighters to stay fully crewed throughout the daytime.

With summer nearly upon us we all need to remember some important points

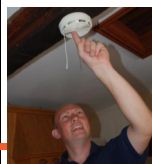

- Dispose of matches and cigarette ends carefully and safely
- Don't have a bonfire of any size during extremely dry weather
- Don't light fires or barbecues in places such as dry heath land
- Keep barbecues away from fences and hedges
- Report all fires immediately by calling 999

Are you safe from fire in your home?

Do you have a working smoke alarm?

Are you over the age of 65?

To find out if you qualify for our free smoke alarms with fitting including alarms for the deaf call the number below
